Former Panamanian Ambassador to the US Joins AMLBitcoin: Carlos De La Guardia Appointed Vice President Latin America of NAC Foundation, LLC

United States Joins AML BitCoin
Carlos De La Guardia Appointed Vice President for Latin America of NAC Foundation, LLC

Las Vegas, NV – September 6, 2017 – NAC Foundation, LLC, creator of the digital currency AML BitCoin announces today the appointment of former Panamanian Ambassador to the United States, Carlos De La Guardia, as the Vice President for Latin America. In this senior role with the company, Mr. De La Guardia will guide Latin American expansion and development of the AML Bitcoin, which launches internationally on October 1, 2017.

AML BitCoin is unique in the digital coin world. As its first name suggests, "AML" BitCoin is the first digital currency which features a patented "Anti Money Laundering" mechanism into its structure. Unlike the vast number of anonymous cryptocurrencies which have been issued in the past few years, AML BitCoin has built-in features preventing use by terrorist and the criminal underworld. AML BitCoin's compliance with existing anti-money laundering and KYC laws has stirred intense excitement in the coin from governments all around the world.

"Few governmental affairs leaders have the reach and influence that Carlos De La Guardia commands," says Marcus Andrade, Chief Executive Officer of NAC Foundation. "We are very excited that a man of his stature has joined our team, to expand AML BitCoin's use in Latin America."

De La Guardia has vast experience working with high ranking members and decision-makers in Latin America's private and public sectors. Before becoming ambassador, he held top positions at FirstEnergy Corp., Mirant Corp., Mirant South, Johnson Controls Company, and Tokopala. His successful business career ran parallel to his successful rise in the political and diplomatic world. De La Guardia has a Master's Degree in Business with a focus in Marketing Strategy, and brings contacts and knowledge of immense value to AML BitCoin's operations and objectives in Latin America.
